**Re: Becker County Trail Connection  
Wetland Replacement Plan**

Becker County proposes to construct a public recreational use trail connection from the Co Rd 54/Hwy 10/railroad crossing to the Hwy 10 trail underpass on the east side of Detroit Lakes. This will also connect to the future Heartland Trail System from Frazee to Detroit Lakes. The area of intersection with the Hwy 10 underpass will impact 0.14 acres of wetland by filling. Applicant proposes to purchase wetland credits at a 2:1 ratio to replace wetland impacts.
