

Announcing

A New Recycling Program!

www.co.becker.mn.us/recycling

Becker County is excited to announce a new way to recycle within the city limits of Detroit Lakes, Frazee, Audubon, and Lake Park. A great partnership between the County, Cities, and local haulers will roll out **single-stream recycling** beginning in early June. Single stream is an easier & more efficient way to recycle by allowing residents to place plastics, paper, metal, cartons, and cardboard in one container.

Please keep glass out of the cart and bring it to the Becker County 'Big Blue Bins' public sites which will continue to stay open and collect separate commodities.

Check out the containers that were just delivered! If you live in the City limits of Detroit Lakes, Frazee, Audubon, or Lake Park, and want a recycling container, check with your waste hauler!
